WCS-03LB
Model No. 1000 Class: G2
Serial Number: 2343
Meets: AS/NZS 2343 Level: 3A Plus
NIJ Std 0108.01
This weapons clearing station is designed to defeat and contain HAND GUNS ONLY
CALIBRE'S
22; .25; .32; 380; 9mm; .38/257MAG; 40S&W; 10mm; .41MAG; .41AE; 44MAG; .45ACP/PLC
INSPECT BULLET TRAP CORE REGULARLY

Specifications:

OAL Dimensions: 235mm long; 215mm high; 115mm wide.

Main Body Construction: Stainless Steel Tube 100mm nominal OD.

Base End Cap & Stand: Stainless Steel.

Total Weight: 4.10kg+- 0.1kg (Including Ballistic Poly Core).

Ballistic Media Pack: Ballistic Polymer Core

Bushing: HDPE with 80mm diameter muzzle clearance for Glock with light attached

Test Standards:

All testing performed by NATA accredited Laboratory

Complies with **AS/NZS 2343:1997 Class G2/S0 plus defined Special Class ammunition**

Complies with **NIJ STD 0108.01 Level III-A plus defined Special Level ammunition.**

The WCS-03LB is tested and certified to contain multiple impacts from High Velocity Pistol Ammunition such as 9mm SMG, 40 S&W, 357 Magnum and 44 Magnum including some Eastern Bloc calibres.

Note: The WCS-03LB is not designed to defeat Ammunition with Armour Piercing, Solid Mild Steel, Brass or Copper Projectiles.

Handgun (Full Metal Jacket and Frangible Expanding types only)

.22LR	9 x 21mm	.44 Remington Magnum

Maintenance:

Maintenance requirements are low as the WCS-03LB is constructed from durable Stainless Steel and Polymers. A regular wipe of the external areas to remove dust and dirt is generally sufficient and for heavier build up any normal detergent or even solvent can be used.

The WCS-03LB Polymer core and bushing are available as spare parts and they can be field replaced by unskilled personnel with only basic tools in minutes.

The Ballistic Polymer core is capable of containing multiple projectiles and during our design and test phase. In excess of 40 projectiles were fired into and contained in the core with out issues. Based on this the core should last for the full life of the product.

Warranty:

Multifile Products are covered by \$20 Million Product Liability Insurance (Certificate of Currency available on Request).

Desk Mountable

Wall Mountable

Spare Parts:

Front Bush

Ballistic Media Core

Pedestal Mount:

Fully Welded 304 Stainless Steel Construction

Dimensions: 300mm Wide x 400mm Deep x 870mm High

Ballistic Armour Panels

Multifile Weapon Storage Australia offer a range of Ballistic Armour Panels using advanced composite Materials. Offering lightweight ballistic protection for Rifles and Pistols into new or existing infrastructure. Ideal for use in Weapons Clearing Areas and Issuing Rooms. Ballistic Panels are available to meet Ballistic Resistant Standards including AS/NZS2343:1997 and NIJ STD 0108.01.

Features:

- Captures projectile and spall within the panel compared to high ricochet risk in steel solutions
- Can be cut and drilled using standard power tools on site.
- Can be installed onto timber or steel studs.
- Corrosion resistant, impervious to oil, water and lubricants.
- Paintable surface finish.
- Greater flexibility when designing protective wall partitions.
- Covered by Limited 5-year Warranty.
