# Axon Body Camera Component

The Multifile Axon Body Camera Component is a fully contained versatile and flexible system for the storage of Axon Body Camera Docks- **This attaches directly to the WSA Weapons Panel.**

- Fully Self Contained
- Fully adjustable, can be moved or accessed at any time
- Future Proof add or substitute body cameras, tasers or other equipment over time as requirements change
- No visible power cables
- No visible power bricks
- No visible ethernet cables
- Will accommodate either the Axon AB2 or AB3 body camera dock

# Cable Management

Recommend using cable management trays on each side of the Weapon Storage Australia panel.  Power ethernet and cable management trays to be supplied and installed separately

1. Power and ethernet cables come straight out of the Axon dock directly into the cavity behind the WSA mounting component.
2. The power brick and cable is housed within the WSA component
3. Cables run off the panel directly into the cable management tray
4. Cables will be routed in the tray as necessary
5. Cables run out of the cable tray directly into the power / ethernet socket
